I am happy to be at my school % | 2025-2026	**58.4**	**58.2**	**55.0**
I feel the teachers at my school treat me fairly % | 2025-2026	**68.5**	**64.5**	**63.0**
I feel safe in my school % | 2025-2026	**64.8**	**69.0**	**68.3**

About this Table

Content and description
This table presents data collected from students in grades 4 and 5 through the New Brunswick Student Wellness and Education Survey (SWES). It contains self-reported information regarding demographic characteristics, social and emotional development, healthy lifestyles, and school connectedness.
The questionnaire previously contained modules, which means that certain questions were asked every other cycle.

Why it is important
Only when we understand who our students are and what their needs are can we better plan for services and allocate resources to meet their health and educational needs.

Availability of the data
The information in this data table is available by school district, school sector and overall New Brunswick, by the seven (7) New Brunswick health zones and 33 communities created by the NBHC, as well as by demographic groups. More information is available on our New Brunswick Student Wellness and Education Survey page.

Note about demographic groups
In 2023, the NBHC undertook a review of the demographic questions in its surveys to more accurately report on the experience of citizens who identify with particular groups. As such, starting in 2024, all demographic groups (characteristics) have been adjusted to reflect this change. Data tables and indicator pages were adjusted to allow for trending where applicable.
