Cost for ambulance services was too high % 2020	19.0	22.7

Wait times

Family doctor

Can get an appointment on the same day or next day % 2020	25.9	22.1
Can get an appointment within 5 days % 2020	55.2	50.8

Nurse practitioner

Can get an appointment on the same day or next day % 2020	11.4	18.7
Can get an appointment within 5 days % 2020	42.7	51.7

Other

	Zone 2 Fundy Shore and Saint John Area	Province New Brunswick
Hospital emergency department: Waited less than 4 hours % 2020	71.2	65.5
Specialist: Waited less than 1 month for a first visit % 2020	41.3	40.7
Diagnostic test: Waited less than 1 month (non-emergency situation) % 2020	54.1	52.3

Visits per type of provider in the last 12 months

Family doctor

Visit in the last 12 months % 2020	89.3	87.2
Average number of visits Number 2020	3.1	3.1

Nurse practitioner

Visit in the last 12 months % 2020	98.2	92.9
Average number of visits Number 2020	3.3	3.4

After-hours or walk-in clinic

Visit in the last 12 months % 2020	29.1	35.1
Average number of visits Number 2020	0.6	0.8

Tele-Care 811

Called in the last 12 months % 2020	15.6	14.5
Average number of calls Number 2020	0.3	0.3

Community health centre

Visit in the last 12 months % 2020	11.3	13.1
Average number of visits Number 2020	0.4	0.4

Hospital emergency department

Visit in the last 12 months % 2020	39.0	38.1
Average number of visits Number 2020	0.7	0.8

Zone 2
Fundy Shore and
Saint John Area

Province
New Brunswick

Visited the hospital emergency department because their primary care provider was not available % 2020	37.6	39.7
--	-------------	-------------

Ambulance services

Used in the last 12 months % 2020	7.3	6.8
Average number of calls Number 2020	0.1	0.1

Communication and language of service

Prefers services in English % 2020	97.2	70.3
...Always received services in English % 2020	97.7	95.7
Prefers services in French % 2020	1.0	24.2
...Always received services in French % 2017	43.2	74.7
Always received services in official language of their choice % 2020	95.8	88.7
Verbal information about condition/prescription is easy to understand, always or usually % 2020	91.7	91.7
Had a language barrier communicating with a health professional in the last 12 months % 2020	2.9	3.8

Safety (excluding hospital stays) in the last 12 months

Believe they were harmed because of a medical error or mistake % 2020	2.0	2.5
---	------------	------------

Favourable rating of services received (8, 9 or 10 out of 10)

Overall % 2020	65.3	66.2
From family doctor % 2020	82.5	81.5
From nurse practitioner (who is primary care provider) % 2020	76.5	79.8
From an after-hours or a walk-in clinic % 2020	65.8	63.6
From Tele-Care 811 % 2020	65.9	71.2

	Zone 2 Fundy Shore and Saint John Area	Province New Brunswick
From a community health centre % 2020	77.2	75.2
From the hospital emergency department % 2020	55.5	52.4
From ambulance services % 2020	94.8	90.4

About this Table

Content and description

Data about the delivery of health services in New Brunswick and the interactions citizens have with these services.

Health services reported include: family doctors, nurse practitioners, after-hours or walk-in clinics, community health centres, Tele-Care 811, hospital emergency departments, ambulance services and pharmacists.

Topics include: having or not having a primary care provider, where citizens go most often when they are sick, barriers in getting health care, wait times, visits to providers or health centres, nature of communication with primary care providers and language of service, safety and rating of the experience with the services received.

Why it is important

By better understanding the quality of the delivery of health services throughout the province, we can better understand the care models in place, and the dynamics that can influence access and the variability of the quality of health services around the province.

Availability of the data

The information for this data table is available at different geographical levels as well as by demographic groups. More information is available on our [Primary Health Survey](#) page.

Note about 2020 data

The 2020 edition of the Primary Health Survey (PHS) was conducted during the COVID-19 pandemic. While the pandemic did not influence the survey's response rate, the NBHC had to assess the impact of surveying during the pandemic. Accordingly, advanced statistical analyses were performed to allow for comparison between the results obtained in 2020 and those obtained in previous PHS cycles. Some indicators had to be suppressed in the 2020 edition as part of this process. Despite these analyses, users are advised to use the 2020 data with caution, especially when creating estimates for small sub-populations or when comparing it to other PHS editions.
