About this Table

Social and economic factors, such as education, stable jobs, and strong social networks are fundamental to achieving long and healthy lives.

Content and description

Information on family and social support, community safety and stress, by age group.

Information regarding education, employment, and income is also available here.

Why is this important?

Social and economic factors can significantly affect how well and how long we live. They can affect our ability to make healthy choices, afford housing, manage stress, and more.

Availability of the data

Indicators from a variety of sources are collected, organized, and analyzed by the NBHC.

These data sources are used to represent the population health of New Brunswickers. Each have various levels of reliability and limitations as detailed in the Indicator pages.

The information for this data table is available for the 33 NBHC Communities, 7 Health Zones and for New Brunswick overall.

The Population Health data table series provides comprehensive view about the people who live, learn, work, take part in activities and in community life in this area.
