### About

This indicator is the percentage of citizens [visiting a community health centre in the last 12 months] who reported that the community health centre has an after-hours arrangement for them to see another health care provider when the office is closed.

### Source

Primary Health Survey and Primary Care Survey

### Calculations

This indicator is based on respondents who have visited a community health centre in the last 12 months . This indicator is calculated by dividing the number of respondents who answered "yes" by the number of respondents who answered "yes, no or I don't know" to the question: Does the community health centre have an after-hour arrangement for you to see or talk to another health care provider when the centre is closed?
