About

This indicator is the percentage of citizens [visiting a community health centre in the last 12 months] who reported that the community health centre has an after-hours arrangement for them to see another health care provider when the office is closed.

Source

Primary Health Survey and Primary Care Survey

Calculations

This indicator is based on respondents who have visited a community health centre in the last 12 months . This indicator is calculated by dividing the number of respondents who answered "yes" by the number of respondents who answered "yes, no or I don't know" to the question: Does the community health centre have an after-hour arrangement for you to see or talk to another health care provider when the centre is closed?

Unit	Interpretation	NBHC code
%	Higher is better	PH_ACCHB_1
