About

This indicator is the percentage of citizens who visited a health professional at a private clinic in the last 12 months, based on their responses to 5 individual questions related to private clinic.

Source

Primary Health Survey and Primary Care Survey

Calculations

This indicator combines the responses to the following 5 individual questions related to private clinic: Have you visited any of the following health professionals at a private clinic or centre in the last 12 months: 'Physiotherapist (yes/no)', 'Occupational therapist (yes/no)', 'Dietitian (yes/no)', 'Social worker (yes/no)' or 'Psychologist (yes/no)'. This indicator is calculated by dividing the number of respondents who answered 'yes' to at least 1 of these individual questions by the total number of respondents.
