Without disability	5.0	4.4
With disability	30.5	29.9

### **About**

This indicator is the percentage of citizens who take 6 or more different prescription medications on a regular basis.

## Source

Primary Health Survey and Primary Care Survey

# **Calculations**

This indicator is calculated by dividing the number of respondents who answered "6 to 8 or more than 8" by the number of respondents who answered "0, 1, 2, 3 to 5, 6 to 8 or more than 8" to the question: How many different prescription medications are you taking on a regular or ongoing basis?

#### **Notes**

The 2020 edition of the Primary Health Survey (PHS) was conducted during the COVID-19 pandemic. While the pandemic did not influence the survey's response rate, NBHC had to assess the impact of surveying during the pandemic. Accordingly, advanced statistical analyses were performed to allow for comparison between the results obtained in 2020 and those obtained in previous PHS cycles. Despite these analyses, users are advised to use the PHS 2020 data with caution, especially when creating estimates for small subpopulations or when comparing it to other PHS editions.

Unit	Interpretation	NBHC code
%	Lower is better	PH_MED01_1
