\$60,000 or more	26.1

Year  
2020

**Persons with a disability**

Without disability	31.5
With disability	50.4

## About

This indicator is the percentage of citizens who feel they lacked companionship some of the time or often.

## Source

Primary Health Survey and Primary Care Survey

## Calculations

This indicator is calculated by dividing the number of respondents who answered "some of the time or often" by the number of respondents who answered "hardly ever, some of the time or often" to the question: How often do you feel that you lack companionship?

## Notes

The 2020 edition of the Primary Health Survey (PHS) was conducted during the COVID-19 pandemic. While the pandemic did not influence the survey's response rate, NBHC had to assess the impact of surveying during the pandemic. Accordingly, advanced statistical analyses were performed to allow for comparison between the results obtained in 2020 and those obtained in previous PHS cycles. Despite these analyses, users are advised to use the PHS 2020 data with caution, especially when creating estimates for small sub-populations or when comparing it to other PHS editions.
