Without disability	2.0	1.3
With disability	9.9	8.2

About

This indicator is the percentage of citizens who received home care services in the last 12 months, with the cost not covered by the government, such as care provided by a private agency or by a spouse, family or friends.

Source

Primary Health Survey and Primary Care Survey

Calculations

This indicator is calculated by dividing the number of respondents who answered "yes" by the number of respondents who answered "yes or no" to the question: Have you received any other home care services in the past 12 months, with the cost not covered by the government such as care provided by a private agency or by a spouse, family or friends?

Notes

The 2020 edition of the Primary Health Survey (PHS) was conducted during the COVID-19 pandemic. While the pandemic did not influence the survey's response rate, NBHC had to assess the impact of surveying during the pandemic. Accordingly, advanced statistical analyses were performed to allow for comparison between the results obtained in 2020 and those obtained in previous PHS cycles. Despite these analyses, users are advised to use the PHS 2020 data with caution, especially when creating estimates for small subpopulations or when comparing it to other PHS editions.
