About

This indicator is the percentage of students in grades 6 to 12 who are susceptible to smoking [among those who have never tried it]

Source

New Brunswick Health Council, New Brunswick Student Wellness Survey - Grades 6-12

Calculations

This indicator is based on respondents who have never tried smoking. This indicator combines the responses to the following 3 questions: 'Do you think in the future you might try smoking cigarettes?', 'If one of your best friends was to offer you a cigarette would you smoke it?' and 'At any time during the next year do you think you will smoke a cigarette?'. The response options to these 3 questions are: 'definitely not, probably not, probably yes and definitely yes'. This indicator is calculated by dividing the number of respondents who answered 'probably not, probably yes or definitely yes' to at least 1 of the 3 questions by the number of respondents who answered all 3 questions.

Notes

Users are advised to exercise caution if comparing data from the community of Grand Bay-Westfield, Westfield, Greenwich Area to other New Brunswick communities. The data for the community of Grand Bay-Westfield, Westfield, Greenwich Area is based on students in grades 6 to 8, while data from the other communities are based on students in grades 6 to 12. Survey results are assigned to communities based on the location of the school. The community of Grand Bay-Westfield, Westfield, Greenwich Area does not have any schools with grades 9 to 12.
