

STUDENT WELLNESS AND EDUCATION SURVEY

Grades 6-12: Physical Health

Community
Dieppe and
Memramcook

Zone 1
Moncton and
South-East Area

Province
New Brunswick

General health

	Community	Zone 1	Province
Perceived health, very good or excellent % 2024-2025	60.5	48.6	46.9

Weights

Overweight and obesity in childhood and adolescence have been associated with elevated health risks and morbidities, and increased mortality rates in adulthood. They are risk factors for a large number of serious diseases and conditions like high blood pressure, heart disease, diabetes, stroke, some cancers, and mental health problems.

	Community	Zone 1	Province
Overweight or obese % 2024-2025	21.6	26.2	27.0

Physical activity, leisure screen time, and sleep

Physical activity

Drinks sugary drinks % 2024-2025	53.3	64.4	68.0
Drinks high energy drinks % 2024-2025	12.0	17.0	19.4

Eating habits

Did not eat a meal from a fast food restaurant, last 7 days % 2023-2024	36.9	34.8	32.2
Ate a meal from a fast food restaurant 3 times or more, last 7 days % 2023-2024	10.1	10.5	12.6
Did not eat while using an electronic device, last 7 days % 2023-2024	35.4	26.6	24.5

	Community Dieppe and Memramcook	Zone 1 Moncton and South-East Area	Province New Brunswick
Ate 7 times or more while using an electronic device, last 7 days % 2023-2024	11.8	19.0	20.3
Eats the evening meal with family/guardian(s) or friends, daily % 2023-2024	55.3	45.9	44.1
Eats the evening meal with family/guardian(s) or friends, most days % 2023-2024	72.8	61.2	59.4
Eats breakfast, daily % 2023-2024	48.2	39.8	35.6
Eats breakfast, most days % 2023-2024	61.7	52.1	47.5

Barriers to daily breakfast

No time % 2023-2024	23.9	25.8	26.6
Not hungry % 2023-2024	33.9	34.2	36.0
Feels sick after breakfast % 2023-2024	10.9	14.4	16.3
Tries to lose weight % 2023-2024	7.5	10.2	10.6
Has nothing to eat at home % 2023-2024	3.0	3.7	3.6

Safety

Driver of an off-road vehicle - under the influence of alcohol or drugs, last 12 months % 2024-2025	6.4	7.4	10.3
Passenger in an on-road vehicle - driven by someone under the influence of alcohol or drugs, last 12 months % 2024-2025	12.2	12.7	14.8

Sexual violence

Has been sexually violated % 2024-2025	9.1	11.6	12.5
Victim of dating violence, last 12 months (among those who dated) % 2024-2025	5.9	11.2	13.4
Knows when legally able to consent to sexual activity % 2024-2025	65.0	69.9	70.3

About this Table

Content and description

This table presents data collected from students in grades 6 to 12 through the New Brunswick Student Wellness and Education Survey (SWES). It contains self-reported information regarding the social and emotional development of New Brunswick students in grades 6 to 12. Topics include general health, physical activity, screen time, sleep, healthy eating, safety, and sexual violence.

The questionnaire comprises modules, which means that certain questions are asked every other cycle.

Why it is important

Only when we understand who our students are and what their needs are can we better plan for services and allocate resources to meet their health and educational needs.

Availability of the data

The information in this data table is available by school district, school sector and overall New Brunswick, by the seven (7) New Brunswick health zones and 33 communities created by the NBHC, as well as by demographic groups. More information is available on our [New Brunswick Student Wellness and Education Survey](#) page.

Note about demographic groups:

In 2023, the NBHC undertook a review of the demographic questions in its surveys to more accurately report on the experience of citizens who identify with particular groups. As such, starting in 2024, all demographic groups (characteristics) have been adjusted to reflect this change. Data tables and indicator pages were adjusted to allow for trending where applicable.
