

STUDENT WELLNESS AND EDUCATION SURVEY

Grades 6-12: Physical Health

General health

Perceived health, very good or excellent % 2023-2024	51.0	54.3
--	-------------	-------------

Healthy weights

Overweight and obesity in childhood and adolescence have been associated with elevated health risks and morbidities, and increased mortality rates in adulthood. They are risk factors for a large number of serious diseases and conditions like high blood pressure, heart disease, diabetes, stroke, some cancers, and mental health problems.

Overweight or obese % 2023-2024	32.7	26.9
-----------------------------------	-------------	-------------

Movement and rest

Physical activity

Daily physical activity, 1 hour or more % 2023-2024	25.6	24.8
---	-------------	-------------

School commute

Commutes actively % 2022-2023	6.7	8.8
---------------------------------	------------	------------

Commutes inactively % 2022-2023	82.7	77.7
-----------------------------------	-------------	-------------

Mixed (actively and inactively) % 2022-2023	10.5	13.5
---	-------------	-------------

Leisure screen time

Has 2 hours or less of screen time, weekdays % 2023-2024	13.5	15.8
--	-------------	-------------

Has 2 hours or less of screen time, weekends % 2023-2024	12.4	14.8
--	-------------	-------------

Spends 3 hours or more playing games on an electronic device, weekdays % 2023-2024	27.0	25.1
--	-------------	-------------

	Zone 7 Miramichi Area	Province New Brunswick
--	--------------------------	---------------------------

Sleep

Sleeps 8 hours or more % 2023-2024	50.9	55.6
Average hours and minutes of sleep Number 2023-2024	8.4	8.6
Uses an electronic device before bed % 2023-2024	91.2	88.9
Uses it 1 to 3 nights a week % 2023-2024	11.8	14.7
Uses it every night % 2023-2024	67.5	62.1
Has trouble going to sleep % 2023-2024	62.4	60.9

Canada's Food Guide recommends eating a variety of healthy foods each day, including plenty of vegetables and fruits, and to limit highly processed foods. It also recommends to eat without distractions.

Food choices

Eats vegetables or fruits 5 times or more per day % 2023-2024	44.6	49.1
Eats highly processed foods 1 time or none per day % 2023-2024	30.2	32.1
Drinks sugary drinks % 2023-2024	72.6	67.7
Drinks high energy drinks % 2023-2024	16.4	17.0

Eating habits

Did not eat a meal from a fast food restaurant, last 7 days % 2023-2024	27.8	32.2
Ate a meal from a fast food restaurant 3 times or more, last 7 days % 2023-2024	15.0	12.6
Did not eat while using an electronic device, last 7 days % 2023-2024	21.0	24.5
Ate 7 times or more while using an electronic device, last 7 days % 2023-2024	23.6	20.3
Eats the evening meal with family or friends, daily % 2023-2024	38.4	44.1
Eats the evening meal with family or friends, most days % 2023-2024	54.0	59.4
Eats breakfast, daily % 2023-2024	29.2	35.6
Eats breakfast, most days % 2023-2024	40.1	47.5

Zone 7
Miramichi Area **Province**
New Brunswick

Barriers to daily breakfast

No time % 2023-2024	26.6	26.6
Not hungry % 2023-2024	39.3	36.0
Feels sick after breakfast % 2023-2024	17.4	16.3
Tries to lose weight % 2023-2024	11.9	10.6
Has nothing to eat at home % 2023-2024	4.1	3.6

Safety

Driver of an off-road vehicle - under the influence of alcohol or drugs, last 12 months % 2022-2023	14.6	11.5
Passenger in an on-road vehicle - driven by someone under the influence of alcohol or drugs, last 12 months % 2022-2023	19.8	17.3
Wears a helmet when biking % 2022-2023	19.3	28.2
Has been injured and had to be treated % 2022-2023	14.7	15.6

Sexual violence

Has been sexually violated % 2022-2023	14.7	14.1
Victim of dating violence, last 12 months (among those who dated) % 2022-2023	19.9	19.8
Knows when legally able to consent to sexual activity % 2022-2023	72.9	75.3

About this Table

Content and description

This table presents data collected from students in grades 6 to 12 through the New Brunswick Student Wellness and Education Survey (SWES). It contains self-reported information regarding the social and emotional development of New Brunswick students in grades 6 to 12. Topics include general health, physical activity, screen time, sleep, healthy eating, safety, and sexual violence.

The questionnaire comprises modules, which means that certain questions are asked every other cycle.

Why it is important

Only when we understand who our students are and what their needs are can we better plan for services and allocate resources to meet their health and educational needs.

Availability of the data

The information in this data table is available by school district, school sector and overall New Brunswick, by the seven (7) New Brunswick health zones and 33 communities created by the NBHC, as well as by demographic groups. More information is available on our [New Brunswick Student Wellness and Education Survey](#) page.

Note about demographic groups:

In 2023, the NBHC undertook a review of the demographic questions in its surveys to more accurately report on the experience of citizens who identify with particular groups. As such, starting in 2024, all demographic groups (characteristics) have been adjusted to reflect this change. Data tables and indicator pages were adjusted to allow for trending where applicable.
