**About**

This indicator is the percentage of citizens receiving any type of home care services and support from an informal caregiver who reported that their grandson or granddaughter helped them the most with their home care in the last 2 months.

**Source**

Home Care Survey

**Calculations**

This indicator is based on respondents who receive help from informal caregivers. This indicator is calculated by dividing the number of respondents who answered "yes" by the number of respondents who answered "yes or no" to the question: In the last 2 months, who has helped you the most with your home care: grandson or granddaughter
