## About

This indicator is the percentage of citizens receiving home care services from home support workers who reported that they have been diagnosed or treated for emphysema or chronic obstructive pulmonary disease (COPD).

## Source

Home Care Survey

## Calculations

This indicator is calculated by dividing the number of respondents who answered "yes" by the number of respondents who answered "yes or no" to the question: Has a doctor or any other health professional ever diagnosed you with or treated you for any of the following chronic health conditions? Please select all that apply: arthritis, asthma, emphysema or COPD (chronic obstructive pulmonary disease), chronic pain, cancer, diabetes, depression, heart disease, stroke, high blood pressure or hypertension, a mood disorder other than depression, such as bipolar disorder, mania, manic depression or dysthymia, gastric reflux (or GERD), alzheimer's disease or another form of dementia, anxiety or high cholesterol.
