### About

This indicator is the percentage of citizens receiving home care services from home support workers and from an informal caregiver who reported that a friend, family member or volunteer helped them with their home care a few times a week in the last 2 months.

### Source

Home Care Survey

### Calculations

This indicator is based on respondents who receive help from informal caregivers. This indicator is calculated by dividing the number of respondents who answered "yes" by the number of respondents who answered "yes or no" to the question: In the last 2 months of care, how often did you receive help with your home care from a friend, family member or volunteer: a few times a week
