About

This indicator is the percentage of citizens receiving home care services from a home support worker who reported that it was very easy or somewhat easy to get information before they started receiving their services.

Source

Home Care Survey

Calculations

This indicator is calculated by dividing the number of respondents who answered "somewhat easy or very easy" by the number of respondents who answered "very difficult, somewhat difficult, somewhat easy or very easy" to the question: Before you started getting home care services, how easy or difficult was it to get information about home care services in New Brunswick?

Notes

The 2021 edition of the Home Care Survey was conducted during the COVID-19 pandemic. While the pandemic did not influence the survey's response rate, users are advised to use the survey data with caution, especially when creating estimates for small sub-populations or when comparing it to other editions of the survey.
