## About

This indicator is the percentage of citizens receiving home care services from home support workers who reported that more could have been done to help them stay at home in the last 2 months.

## Source

Home Care Survey

## Calculations

This indicator is calculated by dividing the number of respondents who answered "yes" by the number of respondents who answered "yes or no" to the question: Thinking of the home support services you received in the last 2 months, is there anything else that could have been done to help you stay at home?

Unit	Interpretation	NBHC code
%	Lower is better	HS_PGMST_1
