About

This indicator is the percentage of citizens receiving home care services from a home support worker who reported that the cost for home support services was too high.

Source

Home Care Survey

Calculations

This indicator is calculated by dividing the number of respondents who answered "yes" by the number of respondents who answered "yes or no" to the question: Please indicate whether you have experienced any of the following when getting the home care services you needed: Have you ever found the cost for home care services too high?

Notes

The 2021 edition of the Home Care Survey was conducted during the COVID-19 pandemic. While the pandemic did not influence the survey's response rate, users are advised to use the survey data with caution, especially when creating estimates for small sub-populations or when comparing it to other editions of the survey.
