\$60,000 or more	2.2	S	S

## About

This indicator is the percentage of citizens receiving home care services from the Extra-Mural Program who reported that the staff gave information to their family or friends that they did not agree for them to have.

## Source

Home Care Survey

## Calculations

This indicator is calculated by dividing the number of respondents who answered "yes" by the number of respondents who answered "yes or no" to the question: Has the program staff ever given information to your family or friends that you did not agree for them to have?

## Notes

The 2021 edition of the Home Care Survey was conducted during the COVID-19 pandemic. While the pandemic did not influence the survey's response rate, users are advised to use the survey data with caution, especially when creating estimates for small sub-populations or when comparing it to other editions of the survey.
