About

This indicator is the percentage of citizens receiving home care services from the Extra-Mural Program who reported that the staff always kept them informed about when they would arrive at their home in the last 2 months.

Source

Home Care Survey

Calculations

This indicator is calculated by dividing the number of respondents who answered "always" by the number of respondents who answered "never, sometimes, usually or always" to the question: In the last 2 months, how often did Extra-Mural staff keep you informed about when they would arrive at your home?

Notes

The 2021 edition of the Home Care Survey was conducted during the COVID-19 pandemic. While the pandemic did not influence the survey's response rate, users are advised to use the survey data with caution, especially when creating estimates for small sub-populations or when comparing it to other editions of the survey.
