About

This indicator is the percentage of citizens receiving home care services from the Extra-Mural Program who reported that the staff always washed their hands before providing person-to-person care in the last 2 months.

Source

Home Care Survey

Calculations

This indicator is calculated by dividing the number of respondents who answered "always" by the number of respondents who answered "never, sometimes, usually or always" to the question: In the last 2 months, how often did Extra-Mural staff wash their hands or use hand sanitizer before providing person-to-person care?

Unit	Interpretation	NBHC code
