About

This indicator is the percentage of citizens receiving home care services from the Extra-Mural Program after a visit to the hospital or rehabilitation center who reported that the staff at the hospital or rehabilitation center explained to them what services they would be receiving from the Extra-Mural Program.

Source

Home Care Survey

Calculations

This indicator is based on respondents who receive home care services after a visit to the hospital or rehabilitation center. This indicator is calculated by dividing the number of respondents who answered "yes" by the number of respondents who answered "yes or no" to the question: Did the staff at the hospital or rehabilitation center explain to you what services you would be receiving from the Extra-Mural Program?
