### About

This indicator is the percentage of citizens receiving home care services from the Extra-Mural Program who reported that they have no language preference when receiving services.

### Source

Home Care Survey

### Calculations

This indicator is calculated by dividing the number of respondents who answered "no preference" by the number of respondents who answered "English, French or no preference" to the question: You have the right to be served in either English or French. Of these two languages, which is your preference?
