\$60,000 or more	8.5	6.2	4.3	2.5

## About

This indicator is the percentage of citizens receiving home care services from the Extra-Mural Program who do not have a preference in receiving their services in either English or French.

## Source

Home Care Survey

## Calculations

This indicator is calculated by dividing the number of respondents who answered "no preference" by the number of respondents who answered "English, French or no preference" to the question: You have the right to be served in either English or French. Of these two languages, which is your preference?

## Notes

The 2021 edition of the Home Care Survey was conducted during the COVID-19 pandemic. While the pandemic did not influence the survey's response rate, users are advised to use the survey data with caution, especially when creating estimates for small sub-populations or when comparing it to other editions of the survey.
