## **About**

This indicator is the percentage of citizens receiving home care services from the Extra-Mural Program [with a preference for services in English] who reported that they always received their services in the language (English or French) of their choice in the last 2 months.

## Source

Home Care Survey

## **Calculations**

This indicator is based on respondents who have a preference for services in English . This indicator is calculated by dividing the number of respondents who answered "always" by the number of respondents who answered "never, sometimes, usually or always" to the question: In the last 2 months, how often did you receive the Extra-Mural services you needed in the language (English or French) of your choice?

## **Notes**

The 2021 edition of the Home Care Survey was conducted during the COVID-19 pandemic. While the pandemic did not influence the survey's response rate, users are advised to use the survey data with caution, especially when creating estimates for small sub-populations or when comparing it to other editions of the survey.
