# **About**

This indicator is the percentage of citizens receiving home care services from the Extra-Mural Program [and contacted the EMP office in the last 2 months] who reported that they received the help or advice they needed within a few hours of contacting the office.

## Source

Home Care Survey

# **Calculations**

This indicator is based on respondents who contacted the Extra-Mural Program office in the last 2 months. This indicator is calculated by dividing the number of respondents who answered "within a few hours" by the number of respondents who answered "within a few hours, same day (but longer than a few hours), 1 to 5 days or 6 to 14 days" to the question: When you contacted this program's office, how long did it take for you to get the help or advice you needed?

## **Notes**

The 2021 edition of the Home Care Survey was conducted during the COVID-19 pandemic. While the pandemic did not influence the survey's response rate, users are advised to use the survey data with caution, especially when creating estimates for small sub-populations or when comparing it to other editions of the survey.
