Less than \$25,000	97.6
\$25,000 to less than \$60,000	96.5
\$60,000 or more	95.8

### About

This indicator is the percentage of citizens receiving home care services from the Extra-Mural Program who reported that their services helped them stay at home in the last 2 months.

### Source

Home Care Survey

### Calculations

This indicator is calculated by dividing the number of respondents who answered "yes" by the number of respondents who answered "yes or no" to the question: Thinking of the services you received from the Extra-Mural Program in the last 2 months, did these services help you stay at home?

### Notes

The 2021 edition of the Home Care Survey was conducted during the COVID-19 pandemic. While the pandemic did not influence the survey's response rate, users are advised to use the survey data with caution, especially when creating estimates for small sub-populations or when comparing it to other editions of the survey.
