\$25,000 to less than \$60,000	5.9	6.1	6.2	6.8
\$60,000 or more	6.4	6.8	12.4	7.4

## About

This indicator is the percentage of citizens receiving home care services from the Extra-Mural Program who reported that there were limits or reductions in the types of services available.

## Source

Home Care Survey

## Calculations

This indicator is calculated by dividing the number of respondents who answered "yes" by the number of respondents who answered "yes or no" to the question: In the last 12 months, have you needed Extra-Mural services, but there were limits or reductions in the types of services available?

## Notes

The 2021 edition of the Home Care Survey was conducted during the COVID-19 pandemic. While the pandemic did not influence the survey's response rate, users are advised to use the survey data with caution, especially when creating estimates for small sub-populations or when comparing it to other editions of the survey.
