#### **About**

This indicator is the percentage of citizens receiving home care services from the Extra-Mural Program who reported that they had a problem getting the information they needed about their services.

#### Source

Home Care Survey

### **Calculations**

This indicator is calculated by dividing the number of respondents who answered "yes" by the number of respondents who answered "yes or no" to the question: Have you ever had a problem getting the information you needed about home care services?

#### **Notes**

The 2021 edition of the Home Care Survey was conducted during the COVID-19 pandemic. While the pandemic did not influence the survey's response rate, users are advised to use the survey data with caution, especially when creating estimates for small sub-populations or when comparing it to other editions of the survey.
