#### **About**

This indicator is the percentage of citizens receiving home care services from the Extra-Mural Program who would definitely recommend this program to family or friends if they needed home care services.

#### Source

Home Care Survey

## **Calculations**

This indicator is calculated by dividing the number of respondents who answered "definitely yes" by the number of respondents who answered "definitely no, probably no, probably yes or definitely yes" to the question: Would you recommend this program to your family or friends if they needed home health care?

## **Notes**

The 2021 edition of the Home Care Survey was conducted during the COVID-19 pandemic. While the pandemic did not influence the survey's response rate, users are advised to use the survey data with caution, especially when creating estimates for small sub-populations or when comparing it to other editions of the survey.
