Less than \$25,000	96.3	94.3	93.8	93.9
\$25,000 to less than \$60,000	95.7	93.5	95.0	94.1
\$60,000 or more	95.7	91.5	89.6	91.2

About

This indicator is the percentage of citizens receiving home care services from the Extra-Mural Program who reported that their family doctor or nurse practitioner seemed informed about the services they received at home.

Source

Home Care Survey

Calculations

This indicator is calculated by dividing the number of respondents who answered "yes" by the number of respondents who answered "yes or no" to the question: Does your personal family doctor or nurse practitioner seem informed and up-to-date about your home care services?

Notes

The 2021 edition of the Home Care Survey was conducted during the COVID-19 pandemic. While the pandemic did not influence the survey's response rate, users are advised to use the survey data with caution, especially when creating estimates for small sub-populations or when comparing it to other editions of the survey.
