About

This indicator is the percentage of citizens receiving home care services from the Extra-Mural Program who reported that someone from the program talked with them about how to set up their home so they can move around safely.

Source

Home Care Survey

Calculations

This indicator is calculated by dividing the number of respondents who answered "yes" by the number of respondents who answered "yes or no" to the question: Did someone from the program talk with you about how to set up your home so you can move around safely?

Notes

The 2021 edition of the Home Care Survey was conducted during the COVID-19 pandemic. While the pandemic did not influence the survey's response rate, users are advised to use the survey data with caution, especially when creating estimates for small sub-populations or when comparing it to other editions of the survey.
