Francophone sector	<b>66.7</b>

**Grades**

Grades 6 to 8	<b>63.3</b>
Grades 9 to 12	<b>66.3</b>

## About

THIS INDICATOR HAS BEEN DISCONTINUED. THERE IS CURRENTLY NO REPLACEMENT FOR THIS INDICATOR. This indicator is the percentage of students in grades 6 to 12 who have a healthy weight, based on self-reported height and weight.

## Source

Student Wellness and Education Survey - Grades 6-12

## Calculations

This indicator is calculated by dividing the number of respondents who "have a BMI between two age/gender specific cutoffs" by the number of respondents who "give their height and their weight". The BMI is obtained by dividing the weight in kilograms by the height in square metres. Conversions are applied to obtain the correct unit of measure from the following questions: How much do you weigh without your shoes on? And how tall are you without your shoes on?

Unit	Interpretation	NBHC code
%	Higher is better	SH_BMI02_1
