District scolaire francophone Sud	6.4
Francophone sector	6.4
Grades	
Grades 6 to 8	9.5
Grades 9 to 12	6.4

About

THIS INDICATOR HAS BEEN DISCONTINUED. THERE IS CURRENTLY NO REPLACEMENT FOR THIS INDICATOR. This indicator is the percentage of students in grades 6 to 12 who are underweight, based on self-reported height and weight.

Source

Student Wellness and Education Survey - Grades 6-12

Calculations

This indicator is calculated by dividing the number of respondents who "have a BMI lower than an age/gender specific cutoff" by the number of respondents who "give their height and their weight". The BMI is obtained by dividing the weight in kilograms by the height in square metres. Conversions are applied to obtain the correct unit of measure from the following questions: How much do you weigh without your shoes on? And how tall are you without your shoes on?

Unit	Interpretation	NBHC code
%	Lower is better	SH_BMI02_2
