#### **About**

THIS INDICATOR HAS BEEN DISCONTINUED AND REPLACED WITH "SH\_BMI03\_1". This indicator is the percentage of students in grades 6 to 12 who are overweight or obese (based on self-reported height and weight).

#### Source

Student Wellness and Education Survey - Grades 6-12

### **Calculations**

This indicator is calculated by dividing the number of respondents who "have a BMI higher than an age/gender specific cutoff" by the number of respondents who "give their height and their weight". The BMI is obtained by dividing the weight in kilograms by the height in square metres. Conversions are applied to obtain the correct unit of measure from the following questions: How much do you weigh without your shoes on? And how tall are you without your shoes on?

Unit	Interpretation	NBHC code
%	Lower is better	SH_BMI02_3
