About

This indicator is the percentage of students in grades 4 and 5 who reported they could have learned their schoolwork just as well by reading or looking it up on their own at least once or many times each day.

Source

Department of Education and Early Childhood Development

Calculations

This indicator is calculated by dividing the number of respondents who answered "at least once every day or many times each day" by the number of respondents who answered "not at all, one or twice, on most days, at least once every day or many times each day" to the question: In the past two weeks, how often did the following things happen in school? e) I could have learned just as well by reading or looking it up on my own

Notes

This indicator is based on a survey question for students in New Brunswick's Anglophone schools. Survey results are only available for the Anglophone sector and Anglophone school districts.
