Calculations

This indicator is based on respondents who have been bullied. This indicator is calculated by dividing the number of respondents who answered "gym" by the number of respondents who answered at least one of the following "classrooms (including library and computer rooms), hallways, gym, change rooms or locker rooms, washrooms, lunchroom or cafeteria, outside on school property (for example, playground, parking lot) or bus" to the question: Do you avoid any places in your school because of bullying: classrooms (including library and computer rooms), hallways, gym, change rooms or locker rooms, washrooms, lunchroom or cafeteria, outside on school property (for example, playground, parking lot) or bus.

Notes

This indicator is based on a survey question for students in New Brunswick's Anglophone schools. Survey results are only available for the Anglophone sector and Anglophone school districts.
