Smoking allowed inside home % 2025-2026	9.0	8.1	10.8
Smoking allowed inside family vehicle % 2025-2026	8.7	7.1	11.0

Community Riverview and Coverdale	Zone 1 Moncton and South-East Area	Province New Brunswick
------------------------------------------------	-------------------------------------------------	----------------------------------

School connectedness

A sense of school connectedness can support students in making healthy choices. Below are students reporting “A lot like me” or “A little like me” for the scale items.

	Community Riverview and Coverdale	Zone 1 Moncton and South-East Area	Province New Brunswick
High level of school connectedness % 2025-2026	52.0	59.4	57.8
I feel close to people at my school % 2025-2026	46.6	46.3	46.5
I am happy to be at my school % 2025-2026	50.5	58.2	55.0
I feel the teachers at my school treat me fairly % 2025-2026	59.9	64.5	63.0
I feel safe in my school % 2025-2026	60.0	69.0	68.3

About this Table

Content and description

This table presents data collected from students in grades 4 and 5 through the New Brunswick Student Wellness and Education Survey (SWES). It contains self-reported information regarding demographic characteristics, social and emotional development, healthy lifestyles, and school connectedness.

The questionnaire previously contained modules, which means that certain questions were asked every other cycle.

Why it is important

Only when we understand who our students are and what their needs are can we better plan for services and allocate resources to meet their health and educational needs.

Availability of the data

The information in this data table is available by school district, school sector and overall New Brunswick, by the seven (7) New Brunswick health zones and 33 communities created by the NBHC, as well as by demographic groups. More information is available on our [New Brunswick Student Wellness and Education Survey](#) page.

Note about demographic groups

In 2023, the NBHC undertook a review of the demographic questions in its surveys to more accurately report on the experience of citizens who identify with particular groups. As such, starting in 2024, all demographic groups (characteristics) have been adjusted to reflect this change. Data tables and indicator pages were adjusted to allow for trending where applicable.
