About

This indicator is the percentage of eligible public schools (grades K-5) that participated at the provincial level and have received their survey results. This indicator is the percentage of public schools that achieved a response rate sufficient enough to receive their school results. Some schools may not have received their results due to an extremely low response rate.

Student Wellness and Education Survey, Grades K-5: Parent/Guardian Perspective

Calculations

Not available

Notes

Due to the very low response rate for the 2025-2026 parent questionnaire, survey results may not be representative of the overall student and parent population. Therefore, results should not be used for planning or comparing to previous editions of the survey. Some schools will not receive their K to 5 results due to the extremely low number of parents who responded.
