District scolaire francophone Nord-Ouest	52.0	51.9
District scolaire francophone Sud	39.1	43.3
Francophone sector	44.3	47.4

## About

This indicator is the percentage of parents or guardians of students in grades K to 5 who report drinking sugary drinks on the day before the survey.

## Source

Student Wellness and Education Survey, Grades 4-5

## Calculations

This indicator is calculated by dividing the number of respondents who answered "1, 2, 3, 4, 5, 6 or 7 or more" by the number of respondents who answered "none, 1, 2, 3, 4, 5, 6 or 7 or more" to the question: Yesterday, how many times did you eat/consume: d) Sugary drinks (for example, pop, juice, flavoured waters, sport and energy drinks, hot or cold tea and coffee drinks, flavoured milks [like chocolate milk])?

## Notes

Due to the very low response rate for the 2023-2024 parent questionnaire, survey results are deemed to be not representative of the overall student and parent population. Therefore, results at the school, district, sector, and provincial levels are not to be used for planning or comparing to previous editions of the survey. Some schools will not receive their K to 5 results due to the extremely low number of parents who responded.
