District scolaire francophone Sud	27.5	25.3	25.6
Francophone sector	26.9	25.3	25.8

About

This indicator is the percentage of students in grades K to 5 who eat meals while watching TV 3 or more times in the past week, as reported by a parent or guardian.

Source

Student Wellness and Education Survey, Grades 4-5

Calculations

This indicator is calculated by dividing the number of respondents who answered "3, 4, 5, 6, 7 or more or I do not know" by the number of respondents who answered "none, 1, 2, 3, 4, 5, 6, 7 or more or I do not know" to the question: Last week, how many times did your child eat meals while watching TV?

Notes

Due to the very low response rate for the 2023-2024 parent questionnaire, survey results are deemed to be not representative of the overall student and parent population. Therefore, results at the school, district, sector, and provincial levels are not to be used for planning or comparing to previous editions of the survey. Some schools will not receive their K to 5 results due to the extremely low number of parents who responded.
