About

This indicator is the percentage of students who are in grade 3, as reported by a parent [among those who are in kindegarten to grade 5].

Source

Student Wellness and Education Survey, Grades 4-5

Calculations

This indicator is calculated by dividing the number of respondents who answered "3rd grade" by the number of respondents who answered "kindergarten, 1st grade, 2nd grade, 3rd grade, 4th grade or 5th grade" to the question: What grade is your child in?

Notes

Due to the very low response rate for the 2022-2023 parent questionnaire, survey results are deemed to be not representative of the overall student and parent population. Therefore, results at the school, district, sector, and provincial levels are not to be used for planning or comparing to previous editions of the survey. Some schools will not receive their K to 5 results due to the extremely low number of parents who responded.
