About

This indicator is the percentage of students in grades K to 5 who are not born in Canada and have lived 5 years or less in Canada, as reported by a parent or guardian.

Source

Student Wellness and Education Survey, Grades K-5: Parent/Guardian Perspective

Calculations

This indicator is based on respondents who are immigrants. This indicator is calculated by dividing the number of respondents who answered "1 to 2 years or 3 to 5 years" by the number of respondents who answered "1 to 2 years, 3 to 5 years or more than 5 years" to the question: How many years has your child lived in Canada?

Notes

Due to the very low response rate for the 2024-2025 parent questionnaire, survey results may not representative of the overall student and parent population. Therefore, results should not to be used for planning or comparing to previous editions of the survey. Some schools will not receive their K to 5 results due to the extremely low number of parents who responded.
