**About**

This indicator is the percentage of parents of students in grades K to 5 who are physically active for at least 30 minutes on most days or guardian.

**Source**

Student Wellness and Education Survey, Grades 4-5

**Calculations**

This indicator is calculated by dividing the number of respondents who answered "30 min, 1 hour, 1 hour and 30 min, 2 hours or 3 hours or more" by the number of respondents who answered "none, less than 30 min, 30 min, 1 hour, 1 hour and 30 min, 2 hours or 3 hours or more" to the question: On most days (except for working hours) how much time do you spend: d) Being physically active (for example, running, walking, swimming, sports, yard work)

**Notes**

Due to the very low response rate for the 2023-2024 parent questionnaire, survey results are deemed to be not representative of the overall student and parent population. Therefore, results at the school, district, sector, and provincial levels are not to be used for planning or comparing to previous editions of the survey. Some schools will not receive their K to 5 results due to the extremely low number of parents who responded.
