**About**

This indicator is the percentage of parents or guardians of students in grades K to 5 who live with someone who smokes.

**Source**

Student Wellness and Education Survey, Grades 4-5

**Calculations**

This indicator is calculated by dividing the number of respondents who answered "yes" by the number of respondents who answered "yes or no" to the question: Do you or any people you live with smoke or use tobacco?

**Notes**

Due to the very low response rate for the 2023-2024 parent questionnaire, survey results are deemed to be not representative of the overall student and parent population. Therefore, results at the school, district, sector, and provincial levels are not to be used for planning or comparing to previous editions of the survey. Some schools will not receive their K to 5 results due to the extremely low number of parents who responded.
