#### **About**

This indicator is the percentage of students who reported being in grade 5 (among those who are in grade 4 or 5).

### Source

Student Wellness and Education Survey, Grades 4-5

## **Calculations**

This indicator is calculated by dividing the number of respondents who answered "5th grade" by the number of respondents who answered "4th grade or 5th grade" to the question: What grade are you in?

#### **Notes**

The 2019-2020 edition of this survey was conducted during the COVID-19 pandemic. Since the number of schools that participated in 2019-2020 is much lower than other editions of the survey, results at the provincial level were deemed not representative of the total student population. Therefore, survey results for New Brunswick, health zones and demographic groups are not available for the 2019-2020 edition. However, 2019-2020 results are available for communities in which the number of participating schools was deemed sufficient to be representative of the student population in that community.
