Postsecondary	76.3	75.4

**About**

This indicator is the percentage of acute care patients who reported that the admission process was completely organized [when admission is not through ER].

**Source**

Hospital Acute Care Survey

**Calculations**

This indicator is based on respondents who do not have an admission through ER. This indicator is calculated by dividing the number of respondents who answered "completely" by the number of respondents who answered "not at all, partly, quite a bit or completely" to the question: Was your admission into the hospital organized?
