About

This indicator is the percentage of acute care patients who reported that their transfer from the emergency room to a hospital bed was completely organized [when admission is through ER].

Source

Hospital Acute Care Survey

Calculations

This indicator is based on respondents who have an admission through ER. This indicator is calculated by dividing the number of respondents who answered "completely" by the number of respondents who answered "not at all, partly, quite a bit or completely" to the question: Was your transfer from the emergency department into a hospital bed organized?

Unit	Interpretation	NBHC code
%	Higher is better	AC_ADM07_1
