## About

This indicator is the percentage of acute care patients who reported that they were always involved as much as they wanted to be in decisions about their care and treatment.

## Source

Hospital Acute Care Survey

## Calculations

This indicator is calculated by dividing the number of respondents who answered "always" by the number of respondents who answered "never, sometimes, usually or always" to the question: Were you involved as much as you wanted to be in decisions about your care and treatment?

Unit	Interpretation	NBHC code
%	Higher is better	AC_APP03_1
