About

This indicator is the percentage of acute care patients who reported that the hospital staff told them what day they would likely be able to leave the hospital.

Source

Hospital Acute Care Survey

Calculations

This indicator is calculated by dividing the number of respondents who answered "yes, within the first two days, I was told what day I would likely be able to leave the hospital or yes, after the first two days, I was told what day I would likely be able to leave the hospita by the number of respondents who answered "yes, within the first two days, I was told what day I would likely be able to leave the hospital, yes, after the first two days, I was told what day I would likely be able to leave the hospital or no, I was not told what day I would likely be able to leave the hospita to the question: Were you told what day you would likely be able to leave the hospital?
